Jaipur, Rajasthan • muskan.atray@gmail.com • 9414156305 • [linkedin.com/in/muskan-atray-723032252](https://www.linkedin.com/in/muskan-atray-723032252)

B.Tech (IT) student who loves turning ideas into real projects. Always curious and willing to put in the hard work to learn new tools from frontend tech like React to machine learning. Passionate about building meaningful digital experiences through creativity and code.

EDUCATION

Bachelor of Technology (Information Technology)	Jul 2022 - Present
Banasthali Vidyapith	GPA: 8.06
High School Diploma	Apr 2010 - Jan 2022
India International School	

PROJECTS

SereneDive – Mental Health Web App
Developed a responsive web platform promoting emotional wellness with features like journaling, healing tools, anonymous chat, and therapy booking.
ShieldHer- Women Safety Application
ShieldHer is an AI-powered women safety system that detects stress from voice and triggers emergency protocols using real-time keyword spotting, location tracking, audio-video capture, and instant alerts. Built for edge devices, it ensures rapid, offline response without needing internet connectivity.
Scamify – AI-Powered Phishing Site Detector
A web-based tool that intelligently distinguishes between legitimate and phishing websites using a machine learning model. Provides users with real-time analysis of suspicious URLs, helping ensure safer browsing and protect against cyber threats.
